#### 2.0 PROJECT INFORMATION

IMPORTANT: If project is multi-jurisdictional in nature, information must be <u>consolidated</u> for completion of this section.

- 2.1 PROJECT NAME: Mills Ave. Resurfacing
- 2.2 BRIEF PROJECT DESCRIPTION (Sections A through D):
  A. SPECIFIC LOCATION:

  City of Norwood Hamilton County
  (See attached map)
  - B. PROJECT COMPONENTS: The major components of the work to be done on this project are: removal of failed base and rebase roadway, 60% curb replacement, plane roadway, resurface with 2" asphaltic concrete, adjust utilities, construct new catch basins, adjust driveway approaches to grade, and construct handicapped access ramps.
  - C. PHYSICAL DIMENSIONS/CHARACTERISTICS:

Mills Ave. Project: 1,990 lineal feet long roadway and 30' wide.

#### D. DESIGN SERVICE CAPACITY:

IMPORTANT: Detail shall be included regarding current service capacity vs proposed service level. If road or bridge project, include ADT. If water or wastewater project, include current residential rates based on monthly usage of 7,756 gallons per household.

rehabilitation. The roadway is 30' wide and provides 2 lanes for traffic and parking. The roadway is in an area that hs experienced increased growth in traffic volume and vehicular size and weight. The proposed roadway plans and specifications on this project are designed to service the existing traffic loads of this roadway by volume and weight.

#### 2.3 REQUIRED SUPPORTING DOCUMENTATION

(Photographs/Additional Description; Capital Improvements Report; Priority List; 5-year Plan; 2-year Maintenance of Effort report, etc.) Also discuss the number of temporary and/or fulltime jobs which are likely to be created as a result of this project. Attach Pages. Refer to accompanying instructions for further detail.

(Attached hereto please find site map and photos of project).

Mills Ave. is one of the oldest roadways in the City of Norwood. Mills Ave. was originally constructed in 1890, and has a Macadam base. Mills Ave. has changed from a residential street to a mixed-use street of business and residential. Several of the businesses in the area use semi-trucks and trailers and heavy trucks both to receive and transport their products. The increased truck loads and traffic has been a contributing factor to the failing of the roadway base in several areas. There are no alternate routes for truck or any larger vehicles to take in this area other than Mills Ave. due to both Cleveland Ave., to the north and Lincoln Ave., to the south are one-way streets, and are only wide enough to accommodate a passenger vehicle.

Also, located at the terminus of Mills Ave. is the City of Norwood's Millcrest Park, which has facilities for soccer, swimming, baseball, tennis, etc. This park also serves as Norwood High School's home baseball field, as well as soccer field for several schools and organizations. There are also several special events held at this facility during the year.

Mills Ave. also serves as a main roadway connection of West Norwood to the central business district of Norwood and Montgomery Road.

#### 5.0 APPLICANT CERTIFICATION

The Applicant Certifies That:

As the official representative of the Applicant, the undersigned certifies that: (1) he/she is legally empowered to represent the applicant in both requesting and accepting financial assistance as provided under Chapter 164 of the Ohio Revised Code and 164-1 of the Ohio Administrative Code; (2) that to the best of his/her knowledge and belief, all representations that are a part of this application are true and correct; (3) that all official documents and commitments of the applicant that are a part of this application have been duly authorized by the governing body of the Applicant; (4) and, should the requested financial assistance be provided, that in the execution of this project, the Applicant will comply with all assurances required by Ohio law, including those involving minority business utilization, Buy Ohio, and prevailing wages.

IMPORTANT: Applicant certifies that physical construction on the project as defined in this application has not begun, and will not begin, until a Project Agreement on this project has been issued by the Ohio Public Works Commission. Action to the contrary is evidence that OPWC funds are not necessary to complete this project.

IMPORTANT: In the event of a project cost underrun, applicant understands that the identified local match share (sections 3.2(a) through 3.2(c) will be paid in full toward completion of this project. Unneeded OPWC funds will be returned to the funding source from which the project was financed.

4-22-92

Darrell Maxwell, Director - Public Service-Safety

Certifying Representative (Type Name and Title)

signature/L	ode signed
Applicant shall application:	check each of the statements below, confirming that all required information is included in this
Yes	A five-year Capital improvements Report as required in 164-1-31 of the Ohio Administrative Code and a two-year Maintenance of Local Effort Report as required in 164-1-12 of the Ohio Administrative Code.
Yes	A registered professional engineer's estimate of useful life as required in 164-1-13 of the Ohio Administrative Code. Estimate shall contain engineer's <u>original seal and signature</u> .
Yes	A registered professional engineer's estimate of cost as required in 164-1-14 and 164-1-16 of the Obio Administrative Code. Estimate shall contain engineer's <u>original seal and signature</u> .
Yes	A certified copy of the legislation by the governing body of the applicant authorizing a designated official to submit this application and to execute contracts.
X YES	A copy of the cooperation agreement(s) (for projects involving more than one subdivision or district).
YESN/A	Copies of all invoices and warrants for those items identified as "pre-paid" in section 4.4 of this application.

Re: City of Norwood, Ohio

Resurfacing Project: Mills Ave.

Useful Life Requirements

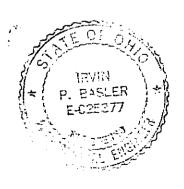

Dear Mr. Howard:

In accordance with Section 164-1-13 of the Ohio Administrative Code for implementation of Issue 2 Infrastructure Program, I hereby certify that the Mills Ave. Resurfacing Project has been designed in accordance with generally accepted engineering principles and practices within the State of Ohio, taking into account the specific climate and other environmental conditions of the infrastructure's site as well as the infrastructure's full anticipated design use loads. I also certify that the proposed improvements shall be constructed to provide a useful life expectancy of 10 years.

Sincerely,

Irvin P. Basler, P.E.P.S.

#### ADDITIONAL SUPPORT INFORMATION

For Fiscal Year 1994 (July 1, 1993 through June 30, 1994), jurisdictions shall provide the following support information to help determine which projects will be funded. Information on this form must be accurate, and where called for, based on sound engineering principles. Documentation to substantiate the individual items may be required by the Support Staff if information does not appear to be accurate.

	information does not appear to be acc		port st	arr ir
1)	What is the condition of the exi- be replaced, repaired, or expand a copy of the current State form	ed? For bridg		
		r <u>X</u>		
	Fair Goo	d		
presur sub sig cap to wi ba tr	Give a brief statement of the nature present facility such as: inadequal surface type and width; number of last substandard design elements such as sight distances, drainage structure capacity. If known, give the approximate be replaced, repaired, or expanded wide and was originally constructed around base and an asphaltic concrete overlay. The traffic and parking. The roadway has sever no handicapped ramp access, pot holes, and castings.	te load capac anes; structu berm width, g es, or inade ate age of the Mills Ave. is 1890. The roadwa e roadway provide e base failure,	city (bural congrades, equate infrast surrentlay has a Meteriorat	ridge); dition; curves, service ructure  y 30' lacadam les for led curbs
2)	months) after receiving the Proje (tentatively set for July 1, 1993 contract? The Support Staff will of previous projects to help judge jurisdiction's anticipated projec	ct Agreement; ) would the properties be reviewing the accuracy to schedule.	from OPW roject b status	C e under reports
	3 weeks/months (Circle			
	Are preliminary plans or engineer	ing completed	? (Yes)	No
	Are detailed construction plans c	ompleted?	Yes	No -
	Are all right-of-way and easements	acquired?	Yes	No N/A
	Are all utility coordinations comp	pleted?	Yes	No N/A
	To be completed during construction pla	_		
	Give an estimate of time, in week item above not yet completed.		to compl eeks/mon	

3)	How will the proposed project impact the general health, safety and welfare of the service area? (Typical examples may include the effects of the completed project on accident rates, emergency response time, fire protection, health hazards, user benefits, and commerce.) Please be specific and provide documentation if necessary to substantiate the data.
	This project will eliminate standing water, and improve storm drainage
	with new catch basins and pavement. Handicapped access will also be
	provided on this project where none existed prior. The replacement of the deteriorated curb on this project will remove hazardous conditions
	for pedestrians and residents throughout the project area. Emergency
	vehicle response time will be enhanced by the improved roadway.
4)	What type of funds are to be utilized for the local share for this project?
	Federal ODOT Local X
	MRF ODNR CD
	Other
	Note: If MRF funds are being used for the local share, the MRF application must have been filed by August 1, 1992 for this project with the Hamilton County Engineer's Office.
	The minimum amount of matching funds for grant projects (local share) must be at least 10% of the TOTAL CONSTRUCTION COST. What percentage of matching funds are being committed to this project?
	8
5)	Has any formal action by a federal, state, or local government agency resulted in a complete or partial ban of the use or expansion of use for the involved infrastructure? (Typical examples include weight limits, truck restrictions, and moratoriums or limitations on issuance of building permits.) A copy of the legislation must be submitted with the application. THE BAN MUST HAVE AN ENGINEERING JUSTIFICATION TO BE VALID.
	Complete Ban No Ban X
	Will the ban be removed after the project is completed?
	Yes No
	I

6)	What is	the	total	number	of	existing	users	that	will	benefit	as
	a resul	t of	the	propose	d p	roject?					

ADT 2,1	-66	х	1.2	=	2,	599
---------	-----	---	-----	---	----	-----

For roads and bridges, multiply current <u>documented</u> Average Daily Traffic by 1.20. For public transit, submit documentation substantiating the count. Where the facility currently has any restrictions or is partially closed, use documented traffic counts prior to the restriction. For storm sewers, sanitary sewers, water lines, and other related facilities, multiply the number of households in the service area by 4.

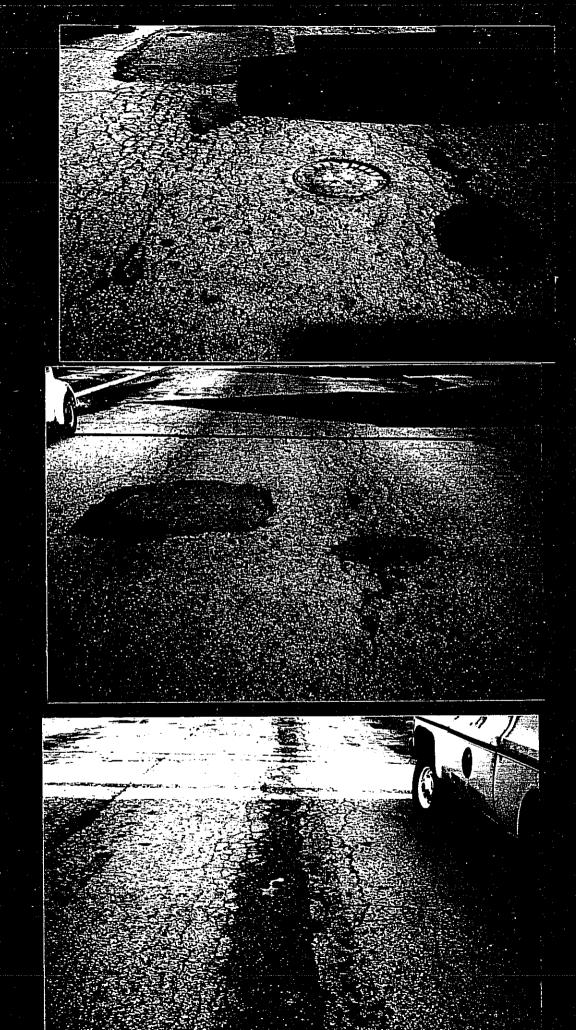

7)	Has the jurisdiction	developed a Five	Year Capita	l Improvement
	Plan as required in			
	included with the a	pplication to be	considered	for funding.)

Yes	X	No
-----	---	----

8) Give a brief statement concerning the regional significance of the infrastructure to be replaced, repaired, or expanded.

Mills Ave. is one of the main east-west connectors of the City of Norwood, as well as being the main connection between west Norwood and the Central Business district of Norwood. Located at the terminus of Mills Ave. is the City of Norwood's Millcrest Park, which has facilities for soccer fields, baseball fields, tennis courts, swimming pool, play grounds, and picnic areas. This park also serves as Norwood High School's home baseball field, as well as home soccer field for several schools and organizations. There are also several special events held at this facility during the year. Also located at the terminus of Mills Ave. is a company that can only utilize Mills Ave. for receiving and shipping goods, as both roadways to the north and south are one-way and are only wide enough to accommodate a passenger vehicle.

## STATE ISSUE 2 PROGRAM - ROUND 6

## LTIP PROGRAM - ROUND 5

FISCAL YEAR 1994 PROJECT SELECTION CRITERIA - JULY 1, 1993 TO JUNE 30, 199 ADOPTED BY THE DISTRICT 2 INTEGRATING COMMITTEE JULY 17, 1992 AMENDED BY THE DISTRICT 2 INTEGRATING COMMITTEE SEPTEMBER 18, 1992

JURISDICTION/AGENCY: 1/00/0 NAME OF PROJECT: MILLS AVE. REHAB TOTAL POINTS FOR THIS PROJECT: 44 NO. POINTS 1) If Issue 2/LTIP Funds are granted, when would the

- construction contract be awarded? (The Support Staff will assign points based on engineering experience.)
  - 10 Points Will be under contract by end of 1993
    - 5 Points Will be under contract by March 30, 1994
    - O Points Will not be under contract by March 30, 1994
- What is the condition of the infrastructure to be replaced or repaired? For bridges, base condition

20 Points - Poor Condition
16 Points 12 Points - Fair to Poor Condition
8 Points 4 Points - Fair Condition
NOTE: If the infrastructure is in "good" or better condition it will NOT be considered for Issue 2/LTIP funding, unless it is a betterment project that will is serviceability.

Page 1

- 3) If the project is built, what will be its effect on the facility's serviceability?
  - 10 Points Significant effect (e.g., widen to and add lanes along entire project)
    - 8 Points Moderate to significant effect
    - 6 Points Moderate effect (e.g., widen exist. lanes)
    - 4 Points Moderate to little effect
    - 2 Points Little or no effect (e.g., street or bridge deck rehabilitation)
- How important is the project to HEALTH, SAFETY, AND WELFARE of the public and the citizens of the District and/or service area?
  - 10 Points Highly significant importance, with substantial impact on all 3 factors
    - 8 Points Considerably significant importance, with substantial impact on 2 factors OR noticeable impact on all 3 factors
    - 6 Points Moderate importance, with substantial impact on 1 factor or noticeable impact on 2 factors
    - 4 Points Minimal importance, with noticeable impact on 1 factor
    - 2 Points No measurable impact
  - 5) What is the overall economic health of the jurisdiction?
    - 10 Points Poor
      - 8 Points -
      - 6 Points Fair
      - 4 Points -
      - 2 Points Excellent
    - 6) What matching funds are being committed to the project, expressed as a percentage of the TOTAL CONSTRUCTION COST? Loan and Credit Enhancement projects automatically receive 5 points, and no match is required. All grant funded projects require a minimum of 10% matching funds.
      - 5 Points 50% or more
      - 4 Points 40% to 49.99%
      - 3 Points 30% to 39.99%
      - 2 Points 20% to 29.99%
      - 1 Point 10% to 19.99%

- 7) Has any formal action by a federal, state, or local government agency resulted in a partial or complete ban of the usage or expansion of the usage for the involved infrastructure? POINTS MAY ONLY BE AWARDED IF THE END RESULT OF THE PROJECT WILL CAUSE THE BAN TO BE LIFTED.
  - 5 Points Complete or significant ban
  - 3 Points Partial or moderate ban
  - 0 Points No ban of any kind
- 8) What is the total number of existing daily users that will benefit as a result of the proposed project? Appropriate criteria include current traffic counts, households served, when converted to a measurement of persons. Public transit users are permitted to be counted for roads and bridges, by only when certifiable ridership figures are provided.
  - 5 Points 10,000 or more
  - 4 Points 7,500 to 9,999
  - 3 Points 5,000 to 7,499
  - 2 Points 2,500 to 4,999
  - 1 Point 2,499 and under
- 9) Does the infrastructure have REGIONAL impact? Consider origins and destinations of traffic, functional classification, size of service area, number of jurisdictions served, etc.
  - 5 Points Major impact (e.g., major multi-jurisdictional route, primary feed route to an Interstate,
    Federal Aid Primary routes)
  - 4 Points -
  - 3 Points Moderate impact (e.g., principal thoroughfares, Federal - Aid Urban routes)
  - 2 Points -

  - 10) Has the jurisdiction enacted the optional \$5 license plate fee, an infrastructure levy, a user fee, or a dedicated tax for infrastructure?
    - 2 Points Two of the above
    - 1 Point One of the above
    - O Points None of the above

## ADDENDUM TO THE RATING SYSTEM DEFINITIONS

#### CRITERION 2 - CONDITION

Poor - Condition is dangerous, unsafe or unusable

Fair to Poor - Condition is inadequate or substandard

Fair - Condition is average, not good or poor

#### CRITERION 5 - ECONOMIC HEALTH

The following factors are used to determine economic health:

- 1) Median per capita income
- Per capita assessed valuation of the total community real estate and personal property
- 3) Poverty indicators
- 4) Effective tax rates
- 5) Total corporate debt as a percentage of assessed valuation
- 6) Municipal revenues and expenditures per capita

#### CRITERION 9 - REGIONAL IMPACT

Major impact - Primary water or sewer main serving an entire system

Moderate impact - Waterline or storm sewer serving only part of a system

Minimal impact - Individual waterline or storm sewer not part of a system
